## Education

### Codeup

Certification of Completion

Apr 2022 - Sep 2022

A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students 670 hours of expert instruction in software development

### University of Texas San Antonio

Sep 2020 - Dec 2021

Completed 70 hrs towards a Bachelor of Nutrition and Dietetics

Agile software developer who has an eye for creativity and problem solving with clean code. My passion for creating quality software combined with my years of experience in customer service and ability to maintain optimism in fast paced environments allow me to thrive in a team setting with enthusiasm to expand my knowledge and skills.

## Development Projects

### Pugs & Kisses

Pugs 'n' kisses is a full-stack web application that allows you to find your best buddy, a play date. It's complete with a modern design made using React.js, styled with TailwindCSS, animated with Framer Motion. The user can sign up for an account then get to creating their dog's profile. It allows dog-owners to collaborate in an effort to help their furry friend live their best life. My team and I were able to design and implement a RESTful API using Spring Boot with full CRUD functionality that communicates with the frontend to authenticate with JWTs.

### Ad Lister Project

Paired programming full stack web application built from Java. Allows the user to create a profile and upload ads for visitors to browse. The user may modify and delete ads they have created and view other user's ads.

### Movie Project

Paired programming project that uses Javascript, HTML, CSS, JSON, and a movie API that allows the user to browse the current inventory and edit or delete items. The user may also create a new movie that'll gather data from the movie API.

## Professional Experience

### GM Financial - San Antonio, TX

*Financial Advisor* / Sep 2018 - Feb 2022

- Recovered funds that were past due and resolved delinquent accounts to prevent escalation
- Assist customers who are experiencing difficult circumstances or vulnerability and express empathy during troubling times
- Performed outbound calls while accepting passing inbound calls from clients to find a solution

### BDS Marketing - San Antonio, TX

*Product Manager* / May 2018 - Dec 2018

- Recognized for surpassing metrics resulting in additional entrusted accounts to manage
- Managed onsite visits of 15 partner stores in central Texas to diagnose merchandise and displays; preventing damage, maximized sales, and maintained inventory control
- Conducted market research of materials, procedures, and merchandise to create standardized sales and operational strategies for each partner store
